Transcript for #gtchat - What the Hasht...

- 5:09 pm **DeborahMersino:** High-achievers remember the answers; gifted learners pose unforeseen questions; creative learners see exceptions. #gtchat
- 5:09 pm **giaimojosephine:** Q1: Thate these are mutually exclusive categories: if you are a high-ability learner, you can't be gifted, and vice versa. #gtchat
- 5:09 pm **DeborahMersino:** High Achievers are interested; Gifted learners are curious; Creative learners wonder. #gtchat
- 5:10 pm **cybraryman1:** @DeborahMersino Q1 Gifted Learner goes beyond and with depth #gtchat
- 5:10 pm **TheRubyBooks:** Really nice :) RT @DeborahMersino: High Achievers are interested; Gifted learners are curious; Creative learners wonder. #gtchat
- 5:10 pm **jofrei:** Q1 Many teachers misidentify the high achievers as the gifted ones and wonder why parents tell them their classclown is gifted #gtchat
- 5:10 pm **giaimojosephine:** Q1: Underachievers and a number of high school drop-outs test in the gifted range (see Davidson research) #gtchat
- 5:10 pm **DeborahMersino:** @giaimojosephine You bring up an excellent point. I don't see them as mutually exclusive (gifted can be high achievers). #gtchat
- 5:10 pm **cybraryman1:** RT @DeborahMersino: High Achievers are interested; Gifted learners are curious; Creative learners wonder. #gtchat
- 5:11 pm **DeborahMersino:** RT @jofrei Q1 Many teachers misidentify high achievers as gifted ones & wonder why parents tell them their classclown is gifted<=YES #gtchat
- 5:11 pm **MaryStGeorge:** q1 depends - high achievers can be Betts & Neiharts "successful gifted" #gtchat
- 5:11 pm **GiftedPhoenix:** #gtchat Q1. Now that depends on how you define #gifted. In an English context, I would see high ability and gifted as pretty much synonymous
- 5:11 pm **giaimojosephine:** RT @jofrei: Q1 Many teachers misidentify the high achievers as the gifted ones <=excellent point! #gtchat
- 5:12 pm **DeborahMersino:** High achievers are attentive; gifted are selectively mentally engaged, creative learners daydream & may seem off task. #gtchat
- 5:12 pm **Frankwspencer:** #gtchat school psychologist in New Hampshire, and person who has trouble keeping up with chats with lots of threads
- 5:12 pm **giaimojosephine:** Q1: high achievers are often the compliant students that teachers "like" but gifted can be quite non-compliant #gtchat
- 5:12 pm **GiftedPhoenix:** @DeborahMersino #gtchat - I think we might be slipping between high achieving and high ability?
- 5:13 pm **MaryStGeorge:** @GiftedPhoenix great, yes it is free online #gtchat
- 5:13 pm **reasoningmind:** I'm a little late, but I'm here! What are we discussing? #gtchat
- 5:13 pm **DeborahMersino:** High achievers answers the ? in detail; gifted learners ponder with depth/multiple perspectives; creative learnrs inject new possib. #gtchat
- 5:13 pm **cybraryman1:** RT @GiftedPhoenix: @DeborahMersino #gtchat - I think we might be slipping between high achieving and high ability?
- 5:14 pm **jofrei:** Some gifted are high achievers and some are not - some high achievers are bright and hard working but not gifted or creative #gtchat
- 5:14 pm **asynchschrfsnd:** I would say - don't have to be a high achiever to be gifted=> RT @GiftedPhoenix: #gtchat Q1. Now that depends on how you define #gifted.
- 5:14 pm **GiftedPhoenix:** #gtchat From my perspective high achievers are a subset of gifted learners - so not mutually exclusive...
- 5:14 pm **DeborahMersino:** @GiftedPhoenix Hopefully I haven't 2 much. Working to distinguish high-achievers (not high ability) with gifted & creative learners. #gtchat
- 5:14 pm **giaimojosephine:** Q1: these clusters are tendencies, and can overlap tremendously. They are not mutually exclusive categories...not an assessment. #gtchat

- 5:14 pm **MaryStGeorge:** High achievers will actually do what you ask of them, creative do what they feel like, and gifted tweak the task #gtchat
- 5:14 pm **asynschlrnsfnd:** Even rebellious! =>RT @giaimojosephine: Q1: gifted can be quite non-compliant #gtchat
- 5:14 pm **DeborahMersino:** @reasoningmind We're discussing differences between high-achieving students, gifted students and creative learners. #gtchat
- 5:15 pm **DeborahMersino:** RT @MaryStGeorge: High achievers will actually do what you ask of them, creative do what they feel like, and gifted tweak the task<! #gtchat
- 5:15 pm **Musicaliti_UK:** RT @DeborahMersino: High achievers are attentive; gifted are selectively mentally engaged, creative learners daydream & may seem off task. #gtchat
- 5:15 pm **GiftedPhoenix:** #gtchat While I see the value in the Kingore descriptions, I think they have the downside of all checklists - too generalised
- 5:15 pm **DeborahMersino:** High achievers performs at top of group; gifted learner is beyond the group; creative learner is in own group. #gtchat
- 5:16 pm **willemdeboer:** RT @jofrei: Q1 Many teachers misidentify the high achievers as the gifted ones and wonder why parents tell them their classclown is gifted #gtchat
- 5:16 pm **Frankwspencer:** #gtchat thinking skills are important, and not always totally related to high achievement or high "ability" ; forgot the gtchat last time
- 5:16 pm **Musicaliti_UK:** RT @DeborahMersino: High Achievers are interested; Gifted learners are curious; Creative learners wonder. #gtchat
- 5:16 pm **DeborahMersino:** @GiftedPhoenix - I agree that we shouldn't overtly categorize/exceptions always. #gtchat
- 5:16 pm **giaimojosephine:** Q1: quoting from Kingore's own page that discusses the chart: "some of the items listed in the comparison are questionable." #gtchat
- 5:16 pm **Musicaliti_UK:** RT @DeborahMersino: High-achievers remember the answers; gifted learners pose unforeseen questions; creative learners see exceptions. #gtchat
- 5:17 pm **MaryStGeorge:** kids who are all 3 try to do what is asked plus a tweak plus a wild inspiration and if lucky get a high grade on extended time #gtchat
- 5:17 pm **cybraryman1:** RT @DeborahMersino: @GiftedPhoenix - I agree that we shouldn't overtly categorize/exceptions always. #gtchat
- 5:17 pm **willemdeboer:** RT @DeborahMersino: RT @MaryStGeorge: High achievers will actually do what you ask of them, creative do what they feel like, and gifted tweak the task<! #gtchat
- 5:17 pm **asynschlrnsfnd:** Ah, you are using definitions from article you posted (<http://bit.ly/fmSZvH>)@DeborahMersino: High achievers answers the ? in detail #gtchat
- 5:17 pm **DeborahMersino:** @GiftedPhoenix - However, I do think in the US, many gifted aren't served, b/c edu confuse high-achieving and gifted. Make sense? #gtchat
- 5:17 pm **MaryStGeorge:** @GiftedPhoenix agree, too generalised #gtchat
- 5:17 pm **GiftedPhoenix:** #gtchat I think we have a Venn diagram with 3 overlapping circles: gifted, high-achieving, creative
- 5:17 pm **LesLinks:** Hi folks.. trying to join in while I'm multi tasking here... Leslie in Ireland reporting for duty.. Hi there.... #gtchat
- 5:17 pm **jofrei:** RT @MaryStGeorge: High achievers will actually do what you ask creative do what they feel like and gifted tweak thetask <= like that #gtchat
- 5:18 pm **giaimojosephine:** RT @DeborahMersino: @GiftedPhoenix - gifted aren't served, b/c edu confuse high-achieving and gifted. Make sense? <== absolutely! #gtchat
- 5:18 pm **cybraryman1:** RT @GiftedPhoenix: #gtchat I think we have a Venn diagram with 3 overlapping circles: gifted, high-achieving, creative
- 5:18 pm **reasoningmind:** @deborahmersino I don't think many schools are equipped to be able to differentiate between the two #gtchat

- 5:18 pm **jofrei:** @LesLinks Hi Les!!! #gtchat
- 5:18 pm **MaryStGeorge:** @GiftedPhoenix agree they overlap #gtchat
- 5:18 pm **DeborahMersino:** Q2: So, if I'm reading the room correctly, is there benefit to the charts/thinking & educating others on differences? #gtchat
- 5:18 pm **LesLinks:** RT @GiftedPhoenix: #gtchat I think we have a Venn diagram with 3 overlapping circles: gifted, high-achieving, creative.. yas.. #gtchat
- 5:18 pm **asynschlrnsfnd:** YES, hits nail on head! =>RT @DeborahMersino: In the US, many gifted aren't served, b/c edu confuse high-achieving and gifted. #gtchat
- 5:18 pm **jofrei:** RT @GiftedPhoenix: #gtchat I think we have a Venn diagram with 3 overlapping circles: gifted, high-achieving, creative -Yes agree #gtchat
- 5:18 pm **LesLinks:** @jofrei @LesLinks Hi Jo... #gtchat
- 5:19 pm **GiftedPhoenix:** @DeborahMersino #gtchat Yes - I agree a worrying tendency to assume the two populations are identical - compounded by some ID practice
- 5:19 pm **MaryStGeorge:** I actually get very peeved with people leaving out high achievers because they can't be gifted #gtchat
- 5:19 pm **Frankwspencer:** a team of gifted, high achievement and creative thinkers would probably be best to solve problems #gtchat
- 5:19 pm **giaimojosephine:** RT @reasoningmind: @deborahmersino How about a chat on identifying the giftedness of teachers? #gtchat
- 5:19 pm **DeborahMersino:** Q2: I believe there's value b/c when it comes to cluster-grouping/identification/etc., educators/parents often don't understand. #gtchat
- 5:19 pm **asynschlrnsfnd:** Q2: I think the charts/examples are helpful, yes. I think a video would do it even more service! #gtchat
- 5:19 pm **DeborahMersino:** RT @Frankwspencer: a team of gifted, high achievement and creative thinkers would probably be best to solve problems<=Agree! #gtchat
- 5:20 pm **LesLinks:** RT @Frankwspencer: a team of gifted, high achievement and creative thinkers would probably be best to solve problems+== Oh yes!! #gtchat
- 5:20 pm **GiftedPhoenix:** @Frankwspencer #gtchat Except that you might have too many of the same kind in a team?
- 5:20 pm **DeborahMersino:** @MaryStGeorge Say more. Here in US, it's the high achievers that get the glory/attention often - they're not overlooked. #gtchat
- 5:21 pm **GaryBrannigan:** @Frankwspencer Even creative thinkers can vary: some fluent, some elaborative, some original, plus combinations. #gtchat
- 5:21 pm **LesLinks:** RT @GiftedPhoenix: @Frankwspencer #gtchat Except that you might have too many of the same kind in a team? might b alot of excitment #gtchat
- 5:21 pm **jofrei:** Q2 Yes I do think we should educate about difference of 3 groups - so that they are not only looking for gifted in high achievers #gtchat
- 5:21 pm **GiftedPhoenix:** Q2 #gtchat I have a big worry about all checklists - never seen the perfect example - but they can be a helpful starter for 10 (as we say)
- 5:21 pm **cybraryman1:** RT @GaryBrannigan: @Frankwspencer Even creative thinkers can vary: some fluent, some elaborative, some original, plus combinations. #gtchat
- 5:21 pm **asynschlrnsfnd:** @MaryStGeorge I think there is an inherent flaw with the term "high achiever" in this sense (i.e., contrasted with gifted) #gtchat
- 5:21 pm **DeborahMersino:** @GaryBrannigan Great point about creatives. #gtchat
- 5:22 pm **Frankwspencer:** you can think in terms of continua instead of categories each learner has a level of cognitive strength, achievement and creativity #gtchat
- 5:22 pm **MaryStGeorge:** I think it is another side of tall poppy syndrome - gifted ed only for quirky in minds of some #gtchat

- 5:22 pm **asynschlrnsfnd:** @MaryStGeorge ...because there ARE gifted people who are high achievers. So it's an overlapping subset (not all gifted are H.A.'s) #gtchat
- 5:22 pm **LesLinks:** RT @GaryBrannigan: @Frankwspencer Even creative thinkers can vary: some fluent, some elaborative, some original, plus combinations. #gtchat
- 5:23 pm **GiftedPhoenix:** @LesLinks Saw some fascinating examples at NAGC weekend of 6 gifted kids trying to design a parachute for an egg! #gtchat
- 5:23 pm **__Quest:** Hello all. Apologies - have been following but couldn't log in til now! Petra from Ireland: parent, trustee. #gtchat
- 5:23 pm **MaryStGeorge:** @AsynchSchlrnsFnd agree totally #gtchat
- 5:23 pm **DeborahMersino:** Q3: Do you agree/disagree that one of inherent paradoxes of advocacy has to do with IDing/descriptors/lack of consensus/myths? #gtchat
- 5:23 pm **LesLinks:** @Frankwspencer spectrums of need.. on concurrent tracks that occasionally overlap.. #gtchat
- 5:23 pm **TheNextMartha:** @DeborahMersino I think high achievers can be "coached" to get grades. With gifted children, grades are not always a pay off #gtchat
- 5:23 pm **giaimojosephine:** Q2: There's benefit, yes, but there is SO MUCH educators don't understand about the gifted. Start with the basics. Dispel the myths. #gtchat
- 5:23 pm **asynschlrnsfnd:** Beautifully stated! RT @MaryStGeorge: I think it is another side of tall poppy syndrome - gifted ed only for quirky in minds of some #gtchat
- 5:23 pm **cybraryman1:** RT @giaimojosephine: Q2: There's benefit, yes, but there is SO MUCH educators don't understand about the gifted. Start with the basics. Dispel the myths. #gtchat
- 5:23 pm **DeborahMersino:** @__Quest Glad you're here! Welcome. #gtchat
- 5:23 pm **GiftedPhoenix:** RT @Frankwspencer: you can think in terms of continua: each learner has a level of cognitive strength, achievement and creativity #gtchat
- 5:23 pm **LesLinks:** @GiftedPhoenix @LesLinks ohhhh I just looove that kind of stuff... ;-D #gtchat
- 5:23 pm **peter_lydon:** #gtchat Hi guys..been busy but lurking in and out....Peter Ireland...<http://bit.ly/gP8IZ1>
- 5:24 pm **giaimojosephine:** RT @MaryStGeorge: people leaving out high achievers because they can't be gifted ...people often misuse the chart. #gtchat
- 5:24 pm **asynschlrnsfnd:** Absolutely! ==> RT @DeborahMersino: Q3: i1 nherent paradox of advocacy has to do with IDing/descriptors/lack of consensus/myths #gtchat
- 5:24 pm **DeborahMersino:** @peter_lydon Glad you popped in. #gtchat
- 5:24 pm **TheNextMartha:** @DeborahMersino I also think that by "lumping" high achievers with gifted confuses educators and general public what GIFTED is. #gtchat
- 5:24 pm **giaimojosephine:** RT @asynschlrnsfnd: Q2: I think the charts/examples are helpful, yes. I think a video would do it even more service! #gtchat
- 5:24 pm **cybraryman1:** In order to advocate we must come up with a clear view of who really are gifted #gtchat
- 5:24 pm **peter_lydon:** #gtchat @DeborahMersino I'm glad too ;)
- 5:25 pm **asynschlrnsfnd:** Oops, maybe I shouldn't drink (tea) and type... I edited a typo into @DeborahMersino's RT, sorry #gtchat
- 5:25 pm **GaryBrannigan:** High achievers may be those bright kids maximizing potential. Many gifted kids may underachieve for various reasons #gtchat
- 5:25 pm **GiftedPhoenix:** #gtchat Q3 You know my view on this one Deborah - we'll always have a broad church of similar-thinking groups + consensus is beyond us....
- 5:25 pm **__Quest:** I suppose the whole aim of GT advocacy is to help the gifted group be part of the high-achieving group. #gtchat
